THE NEWS.

We have from New York, on Thursday morn ing, further details of the foreign intelligence by the Niagara, which rather confirms a warlike aspect of things on the Continent. The Russian and Turkish difficulties was the absorbing topic on the other side of the Atlantic; and both nations were actively raising troops and making all the incipient arrangements for war. The actual number of men under arms in Turkey is a strong evidence of their determination to resist and repel the encroachments of Russia, if she should dare to pass into her boundaries. Another indication that a peaceful settlement of these Russian and Turkish difficulties is not regarded as tavorable is, that the rates of insurance had advanced on all vessels bound to the Black Sea. In England and France it is thought that the whole affair will be amicably arranged; that should Russia proceed to invade Turkey, it is confidently asserted that the French and English fleets will combine and drive back the incursions of the Czar of Russia.

We have a week later news from Californ'a. The crops are good and the yield enormous. The prospects of the miners are favorable, and indicate a season of unusual prosperity. The Indians were quiet; fights were still frequent, but good morals and religion were progressing. From Australia the product of gold was increasing also. The people of Michigan, by a very large majority, said to be approaching 20,000, have de- churches

cided in favor of the Maine Liquor Law. It is now said that the Hon. R. J. Walker accepts the mission to China, and that the veteran Commodore Stewart goes out with him, to take charge of our squadron in the Chinese seas. The latest news from China indicates the overthrow of the the 25th in the evening. Turtor dynasty, and the success of the Rebellion. This will be one of the grand events of the present century; and the Administration bascertainly made a most judicious selection, of one of our ablest statesmen, to represent our interests in this imposing and interesting crisis.

On the 6th of June Gov. Stevens struck his squadron and left Sebastopel for Circassian coast. On the 6th of June Gov. Stevens struck his camp on the margin of Lake Amelia, near Fort Sucling, and followed his advance parties toward werm.

Sucling and followed his advance parties toward werm. Sacling, and tollowed his advance parties toward Paget's Sound. On the Sunday before the governor and officers of the expedition dined, with pork, potatoes, Indian pudding and coffce. The force operating from the head waters of the Mississippi westward consists of about eighty mea, who can be subdivided into four parties. If there be any inefficient men in the corps, Gov. Stevens is determined to send them back before taking up his line of march from the Sauk Rapids, and to have with him not a single man that he can't thoroughly rely upon. Upon approaching the Rocky Mountains the railway survey will probably have to be suspended, and the whole force he applied to the general reconnoisance. By October he expects to get through the Rocky Mountains. Gov. Stevens has authority to treat with the Blackfeet Indians and other tribes through whose country he will pass, and has appointed Mr. Culbertson a special agent among them, who will advise them of the approach of the expedition, and convene a grand council at Fort Benton. From this fort to American Fur Co. traverse in twenty days. All due pains will be taken to keep peace with the Indians, but the party is prepared for defence with a howitzer and Sharp's rifles, firing ten shots a minute. Lt. Rufus Saxton, of the army, is commissioned to establish a depot at the Flat Head village, St. Mary's. The Minnesotians are confident this is the best northern route, and expect that next spring emigrants will pass over Gov.

OARLAND TROTTING RACES .- Yesterday was the first day, but owing to the dust and warm weather the attendance was very meager, and to the same or some other cause, the trot was a failure. It was a race of mile heats-three best in five, for a purse of \$300, with two entries, Ludy Jane and Jack Rossiter, in harness. The horse took the first heat, the mare the second, and the horse the third, but it was given to the mare, in consequence of which the owner of Jack Rossiter withdrew his nag, and the race and purse was given to Lady Jane. We annex the summary: Jack Rossiter - - 1 2 dr.

"CURIOUS DOCUMENTS."-A few days ago the Albany Journal was cackling about some newly discovered documents relating to the treason of Arnold, like a Shanghae pullet over her first egg; but it appears that there is no novelty about them. The Boston Advertiser makes the following remarks concerning them: "On recurring to Spark's Life of Arnold, we find that they were all in his possession while he was writing that work. He has also given a fac-simile of Andre's 'pass,' which was in the hand writing of Arnold. It was for Mr. John Anderson, and not Mr. John Smith. These papers are likewise nearly all printed in the second volume of Chandler's American Criminal

After Rome was subjugated by the heards of northern bar-irians in the lifth century, the humanities of science that had shone with such effelgence upon the Greeks and Ro-mans, were almost extinguished, and for ages the world lay in an interminable night of mental and moral gloom. The human intellect seems to have laid dorman during the long and tedious Winter, with no collisioning spring to awaken and revivity its inactive powers. But at length the dawn of a brigater day began to appear, and slowly and majestical-ly arose from that murky chaos, the sun of salighteument. ordered by Providence, to gladden and illuminate the world with his beaus.
